Social Time 11:30 Lunch 12:00 \$18

Presentation 1:15

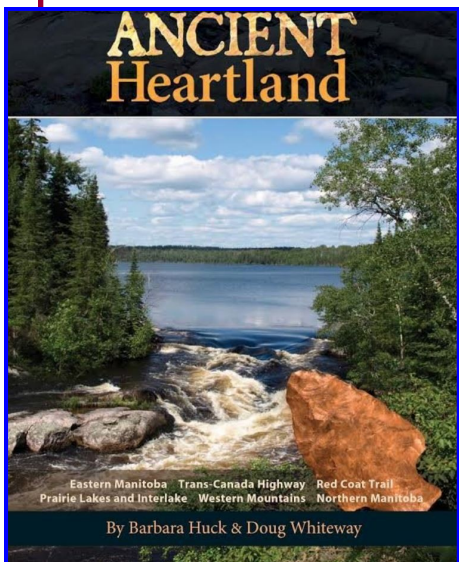

Reservation Deadline Tuesday, February 6

# BARBARA HUCK

Author, editor & publisher

## Manitoba's Fundamental Place in the Creation of North America

Manitoba has much to tell us  
about the distant past and the  
beginnings of our continent.

For information that is measured in billions of years, we look to geological, paleontological and archaeological evidence.

**Barbara Huck** has the inside track on some fascinating evidence of our province's interesting prehistory.

Friends and family are always very welcome as your guests.
